

## QUALIFICATION

CARBONLOW REFERENCE NUMBER:

Company/organisation name:

Contact name (director or similar):

Address:

Telephone number:

Email address:

1. *Is the electricity supply to any of your premises measured by way of a settled half hourly meter?*

**Yes** – Please go to question 2.

2. *Using the following methods of supply has at least 6,000 MWh of electricity been used in the period 1st January 2008 to 31<sup>st</sup> December 2008. (If you are not sure how much electricity you have used then CarbonLow can calculate this on your behalf).*

- (i) supply by settled half hourly meter;
- (ii) supply by reference to a settled half hourly meter
- (iii) remotely read supply

**Yes** – You are probably a qualifying participant within the CRC but please go to Questions 4 and 6 to ascertain if any of the statutory exemptions apply to you and whether you need to report the emissions of any associated organisation or company

**No** - please go to Question 3

3. *Is the electricity supply in question 2 above between 3,000MWh and 6,000MWh?*

**Yes** – You do not have to participate in the CRC but you do need to let the CRC administrator know how much electricity you have used via half hourly meters during [2008/other qualifying period] please click here for the [Information Disclosure form](#)

**No** - Please complete the following declaration

I \_\_\_\_\_ director or other authorised person

confirm that \_\_\_\_\_ [insert name of

organisation/company/partnership] has at least one half hourly meter settled on the half-

hourly market but less than 3,000MWh of electricity has been consumed through the

meter(s) during the relevant period [1<sup>st</sup> January to 31 December 2008/other qualifying

period]

4. Is a large percentage of your electricity used for transport purposes?

**Yes** – Please go to Questions 5 and 6

**No** – Please go straight to Question 6

5. Do you consume
